Solar Parking Solution for Commercial and Residential Projects

# ezShade 2.0

PVezRack® ezShade 2.0 is a solar parking solution providing solar panels support as well as car sheltering for residential and commercial projects. The high quality aluminum components and stainless steel fasteners ensure a robust and reliable system. With the exquisite structure design, the waterproof function is available without using a large amount of EPDM rubbers. Both silver anodized and black anodized options are available.

## Main Benefits

### Easy Installation

Thanks to the innovative structural design, the system can be installed with less steps in a short time.

### Waterproof

With the new structural design, the PVezRack® ezShade 2.0 is totally waterproof after real testing in rainy day.

### Excellent Corrosion Resistance

Manufactured from high quality anodized aluminum and stainless steel with excellent corrosion resistance, PVezRack® ezShade 2.0 offers reliable and durable solution.

### Customized Solution Available

PVezRack® ezShade 2.0 is suitable for projects of small parking and large-scale parking lots, which is developed to cater for customer requirements. We can offer N-Shape or W-Shape supports. Both silver anodized and black anodized products are available.
